

FEATURES AND SPECIFICATIONS

Texas Fluorescents introduces an eye-catching selection of LED Linear Lighting channels that can be surface or pendant mounted individually or with unmatched styling and energy efficiency. Utilizing the latest in LED High Powered Lighting sized exactly to the specific channel provides micro-illumination that will not only highlight the area around it beautifully but say "look here." Ideal for general lighting applications in both commercial and residential applications for circulation spaces, high impact areas and residentially over tables, kitchen islands and home offices. The versatility and clean styling makes this an ideal choice in many applications.

MATERIALS

Anodized Aluminum Channel is lightweight, small dimensions, and dissipates heat well, designed especially for the flexible LED Tape. Highly tooled plastic end caps screw onto the aluminum channel and protect the channel and LED tape from dust and keep the LED Tape clean and in optimum condition. A raceway in the back of the channel provides both a heat sink for the LED Tape and a holder for screws to pendant mount the Channels. The channels can be suspended or flush mounted with optional clips. Snap in flush frosted lens is specially formulated for smooth illumination of the LED Tape.

WARRANTY

Five Year Limited Warranty.

MOUNTING ACCESSORIES (Order Separately)

1 canopy provided with cable kit.

Recessed Mounted brackets

Surface mounted Clips
