<i>Question</i>	<i>Yes</i>	<i>No</i>
1. Were all of the components of the manufactured good manufactured in the United States, and were all of the components assembled into the final product in the United States? (If answer is yes, then this is clearly manufactured in the U.S. and the inquiry is complete.)		
2. Was there a change in character or use of the good or the components in America? (These questions are asked about the finished good as a whole, not about each individual component.)		
a. Was there a change in the physical and/or chemical properties or characteristics designed to alter the functionality of the good?		
b. Did the manufacturing or processing operation result in a change of a product(s) with one use, into a product with a different use?		
c. Did the manufacturing or processing operation result in the narrowing of the range of possible uses of a multi-use project?
